Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: With respect to claim 1, applicant's representative discusses that Smith does not teach or suggest "thumbnail data" as claimed in the method and as defined in the specification. It appears that Smith teaching may not be in part equivalent to the claimed invention. Applicant's representative considers to amend the claim to make it more specific. With respect to claim 12, Smith does not teach pre-cache "thumbnail data" but we all agree upon that's very well known in the art and it is obvious. Examiner is willing to reconsider the prosecution of the said claim .
